SUMMARY

Information Technology undergraduate at SLIIT specializing in Software Engineering with a strong interest in full stack web development and frontend design. Experienced in building scalable, user-focused web applications using the MERN stack and designing clean, intuitive interfaces with Figma. Skilled in microservices and MVC architecture with hands-on experience across academic and personal projects. A collaborative team player with strong problem-solving abilities and a drive for continuous learning.

EDUCATION

- Sri Lanka Institute of Information Technology (SLIIT)** **Nov 2023 - Present**
BSc (Hons) in Information Technology – Specializing in Software Engineering
- CGPA: 3.66 out of 4.00
- D.S. Senanayaka College, Colombo 7**
• GCE Advanced Level – Bio Stream

PROJECTS

- Smart Healthcare Platform** **Feb 2026 - Apr 2026**
Role: Full-Stack Developer (Payment & Notification Services)
Technologies: React, Node.js, Express.js, MongoDB, Payhere, Twilio, Micro-Service Architecture
- A healthcare platform built using a microservices architecture, containerized with Docker and managed using Kubernetes, supporting appointment booking, telemedicine, online payments, and AI-assisted symptom guidance.
 - Developed and maintained the Payment Service, integrating the PayHere Payment Gateway for secure online transactions.
 - Developed a Notification Service using Twilio WhatsApp API for real-time user notifications and transaction updates.
- Clean Water and Sanitation System (CWAS)** **Mar 2026 - Apr 2026**
Role: Full-Stack Developer (Navigation, Restroom & Branch Management)
Technologies: React.js, Node.js, Express.js, MongoDB, Leaflet, OpenStreetMap (OSM)
- A web-based platform designed to improve access to sanitation facilities through location-based navigation, restroom management, user ratings, and facility information management.
 - Developed an interactive map-based navigation system using Leaflet and OpenStreetMap (OSM) to help users locate nearby sanitation facilities.
 - Implemented restroom management features, including facility information management, real-time status updates, and a user rating and review system to improve service quality and user experience.

Role: Android Developer**Technologies: Kotlin, Android Studio, SharedPreferences, ViewBinding**

- Developed a Kotlin-based Android wellness application featuring habit tracking, mood journaling, hydration reminders, and a home-screen widget to support users' daily health and wellness goals.
- Implemented CRUD operations for habit and task management, designed an intuitive user interface using Android Studio, and utilized SharedPreferences for local data persistence and user preference management.

CocoChain – Supply Chain Management & E-Commerce Platform**Sep 2025 – Nov 2025****Full-Stack Developer (User Management Module)****Technologies: React.js, TypeScript, Node.js, Express.js, MongoDB, JWT, REST APIs**

- A web-based platform designed to connect coconut farmers, buyers, and supply chain stakeholders in Sri Lanka by streamlining farm management, product management, inventory tracking, and online commerce.
- Developed the User Management module, including user registration, login, email verification, password recovery, and role-based access control.
- Implemented CRUD functionalities for farmer profiles, farms, and products, enabling efficient management of agricultural data.
- Collaborated within an Agile team environment using GitHub for version control and project coordination.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Java, Kotlin (Beginner), Python (Beginner), C
- **Web Development:** HTML, CSS, Tailwind CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Vite
- **Databases:** MongoDB, MySQL
- **Tools & Technologies:** Git & GitHub, Figma, VS Code, Postman, Android Studio, Docker, Jira
- **Architecture:** MVC Architecture, Microservices Architecture
- **Development Practices:** REST API Design, JWT Authentication, Agile Methodology, Version Control

PROFESSIONAL SKILLS

- **Teamwork & Collaboration • Problem-Solving • Fast Learner & Adaptability**
- **Communication • Time Management • Leadership Qualities**

INTERESTS

- **Mobile Application Development • Software Development • Full Stack Developments**
- **Web Development • UI Designing and Development**
